

**FOR IMMEDIATE RELEASE**

***Syntermed offers remote reading platform at no cost in support of ASNC and SNMMI Guidance and Best Practices during the COVID-19 Pandemic***

ATLANTA, GA (May 1, 2020) - The recently published information statement from ASNC and SNMMI on Guidance and Best Practices for Nuclear Cardiology Laboratories during the Coronavirus Disease 2019 (COVID-19) Pandemic, highlighted the need to minimize exposure and transmission risks among clinical staff and patients. In addition to implementing extensive patient screening procedures, the information statement recommends that telehealth and remote reading/reporting be made available to physicians whenever possible. In response to the ASNC and SNMMI recommendation, and in order to help nuclear medicine professionals meet this recommendation, Syntermed has taken the initiative to make Syntermed Live, our HIPAA compliant remote reading platform, available to any existing or prospective ECTb/AI V4 or NeuroQ V3.8 customer at no-cost for a period of up to 180 days. Standard Syntermed licensing terms apply. This offer is available through July 1, 2020. This offer applies to any existing or prospective ECTb/AI V4 or NeuroQ V3.8 customer who can provide a Windows PC with internet access. Customers interested in learning more about this offer can contact Syntermed directly at [info@syntermed.com](mailto:info@syntermed.com) or call 888.263.4446 and simply identify themselves as an existing or prospective ECTb V4 or NeuroQ user.

This offer is only available in the US.
